**COMPETENCE IN ALUMINUM - INDIVIDUAL
SOLUTIONS FOR YOUR SECTORS**

WWW.GMOEHLING.COM

ADVANTAGE THROUGH MODERN TECHNOLOGY

„MADE IN GERMANY“ is a clear commitment for us as a medium-sized family business to our home base in Fürth. Since 1941, we have been developing and manufacturing our high-quality aluminium products exclusively in Germany. We attach great importance to modern and efficient production processes. Thanks to our many years of experience and proven innovations, we are known worldwide for developing and manufacturing high-quality products that precisely meet our customers' requirements. GMÖHLING stands for high-class quality and outstanding durability.

Design, development and production in Germany is still feasible today. With us, you will find highly qualified and internationally experienced employees, creative minds in the development and 3D-design department as well as experienced staff in administration and production.

It is no coincidence that our export share is more than 50%, even to countries known for low-cost production.

FOCUS ON WORKFLOWS - FASTER, LEANER, MORE ECONOMICAL

We increase the efficiency of your processes with customised solutions for storage and transport. Whether in storage rooms or high-bay rackings - we maximise your capacities and ensure smooth processes.

OUR SOLUTIONS OFFER MANY ADVANTAGES:

- **MAXIMUM CAPACITY:**
Perfect use of space thanks to customised solutions
- **MORE EFFICIENCY:**
Optimised transport for trucks, rail-guided trolleys & as well as fitted for AGVs
- **SAVE COSTS:**
Intelligent solutions reduce time & resource expenditure
- **ROBUST & SAFE:**
Durable products made from high-quality, fire-resistant materials

GMÖHLING - LOGIC FOR YOUR LOGISTICS!

E-COMMERCE

FULFILMENT REDESIGNED - EFFICIENCY MEETS ERGONOMICS

Optimise your processes with our innovative order picking, shelf and sprung base trolleys. Ideal for e-commerce, order picking, returns management. Benefit from greater efficiency, time savings and a healthy working environment!

[Click here for the
G®-ERGO flex video](#)

OUR ADVANTAGES:

- **WHAT SETS US APART:**
Fast delivery and high flexibility
- **REINVENTING ORDER PICKING:**
Simplified multi-order picking and batch picking
- **ERGONOMIC DESIGN:**
Handles, ladders, scales, scanners & push aids
- **MORE THAN STANDARD:**
Docking points for industrial trucks

GMÖHLING

PRODUCT DIVERSITY - CUSTOMISED SPECIFICALLY FOR YOU AND YOUR REQUIREMENTS

Packaging and transport containers in all shapes and sizes. Whether production, logistics or retail - every industry has its own requirements for packaging and transport. We offer the optimum solution: providing standard containers from stock as well as customised special designs.

ADVANTAGES:

- **FAST DELIVERY:**
Standard products available from stock
- **CUSTOMISED:**
Special solutions, even in small batches
- **RELIABLE & MULTIFUNCTIONAL:**
Perfect containers for every use

TRUST IN QUALITY & FLEXIBILITY!

LAUNDRIES

SOLUTIONS FOR MODERN LAUNDRIES - ERGONOMICS MEETS EFFICIENCY

Our aluminium spring-loaded base trolleys make ergonomic working possible thanks to a constant loading and unloading height - no unnecessary bending, which is easy on the back and saves time.

The GMÖHLING cupboard trolleys make organising laundry more efficient and are easy to manoeuvre even when fully loaded. Our transport crates ensure safe storage. GMÖHLING - your partner for smart laundry logistics.

GMÖHLING

OUR ADVANTAGES:

- **ERGONOMIC:**
Back-friendly loading and unloading height for comfortable working
- **EFFICIENT:**
Time-saving and effortless manoeuvrability, even when fully loaded
- **HYGIENIC:**
Storage of sterile packaged goods

HEALTHCARE - HYGIENIC & ERGONOMIC LOGISTICS SOLUTIONS

We offer customised products that meet the highest ergonomic and hygiene standards. Our solutions are ideal for logistics in retirement homes, hospitals, laundries, the pharmaceutical industry and medical practices.

YOUR ADVANTAGES:

- **OPTIMISED LOGISTICS IN CARE:**
Efficient transport of utensils for patient care
- **OPTIMISATION OF WORK PROCESSES:**
Reduction of workload, time and costs
- **WIDE RANGE OF PRODUCTS:**
Transport trolleys, spring-loaded base trolleys, cupboard trolleys and solutions for AGV systems (automated guided vehicle-systems) in standard and customised sizes

TEXTILE INDUSTRY

CUSTOMISED SOLUTIONS - FOR THE TEXTILE INDUSTRY

Our GMÖHLING transport trolleys and containers have been in use in the textile industry worldwide for decades. We offer customised solutions for your specific requirements - from bobbin trolleys to individual transport trolleys.

Our story of success began in the 1960s with bobbin trolleys, tube boxes and cloth collecting trolleys, which made us number 1 on the market. Today, we are continuously developing our products in order to always offer innovative solutions.

GMÖHLING

DISCOVER OUR WIDE RANGE OF PRODUCTS:

- **ERGONOMIC & EFFICIENT:**
Back-friendly handling thanks to its sophisticated design
- **ROBUST & DURABLE:**
Stainless steel and aluminum for maximum load capacity
- **INDIVIDUALLY MADE TO MEASURE:**
Custom-made products tailored precisely to your requirements

YOUR REQUEST IS OUR CHALLENGE - UNIQUE SOLUTIONS

Every work process has its own unique requirements - standard solutions are often insufficient.

Here we show successful projects that we have implemented with decades of experience.

Our products are designed to inspire and demonstrate: Custom-made products are our strength.

YOUR ADVANTAGES:

- **INDIVIDUALLY CUSTOMIZED:**
Perfect solution for special requirements
- **WORK MORE EFFICIENTLY:**
Save time and costs through optimized processes
- **COMPETITIVE ADVANTAGE:**
Customized innovations stand out

ALUMINUM - THE MATERIAL WITH ENDLESS POSSIBILITIES!

Aluminum impresses with its outstanding physical and chemical properties. It is light, corrosion-resistant and versatile. As one of the most common metals on earth, it is used in numerous areas. Thanks to its flexibility and hygienic advantages, aluminum has become indispensable in logistics, transport, waste disposal and many other industries. In addition, aluminum can be recycled as often as required - without any loss of quality.

GMÖHLING - your partner for aluminium transport solutions. We have always relied on this ingenious material and manufacture aluminium trolleys and boxes in all shapes and sizes - customised and across all industries.

TAKING RESPONSIBILITY. CONSERVE RESOURCES. SHAPING THE FUTURE!

Sustainability is firmly anchored in our corporate strategy. We develop resource-conserving products, focus on long-lasting quality and act responsibly along the entire value chain. A dedicated internal team continuously works on measures to harmonize ecology, economy, and social responsibility, creating future-proof solutions. Our commitment to sustainability is confirmed by our **DIN ISO 9001 (quality management)** as well as **DIN ISO 14001 (environmental management)** certifications.

SUSTAINABLE MEASURES:

- **PHOTOVOLTAIC SYSTEM:**
Located on the roof, generating our own electricity
- **RECYCLED ALUMINUM:**
The recycled content of the aluminum used is up to 80%
- **HOMEMATIC:**
Intelligent control of heating and electrical appliances (e.g. printers)
- **GREEN ELECTRICITY:**
Purchase of certified green electricity since December 2023
