We bring **flexibility** to your logistics!

THE GMÖHLING PUSHING AID WITH ELECTRICAL DRIVE!

ERGONOMIC • SAFE • EFFORTLESS – THE OPTIMUM SOLUTION FOR YOUR LOGISTICS!

YOUR ADVANTAGES:

- **More efficiency in less space:** Our pushing aid can be used flexibly for several identical Gmöhling-trolleys. This saves space, reduces investment costs and eliminates the need to equip each individual unit with a motor.
- **Fast transport without waiting:** The electrical drive ensures fast, smooth processes. Thanks to easy handling and exchangeable rechargeable standard batteries, on uninterrupted use is guaranteed.
- **Healthy employees. Higher efficiency:** The pushing aid relieves your employees of physical exertion in their day-to-day work and reduces strain in the long term. The result: better ergonomics, higher motivation and a measurable reduction in sickness-related absence costs.
- **Reduce costs. Accelerate processes.** Thanks to the elimination of expensive individual equipment on each trolley and the reduction in personnel expenses, you will save costs in the long term. Fully loaded transports can be moved easily, safely and effortlessly. Faster processes and the efficient use of materials and manpower lead to noticeable time and cost savings in day-to-day operations.

 **EASY USE:** with proportionally controlled forward and reverse travel

 **SAFE:** Emergency off switch, lock function and sturdy construction ensure maximum safety

 **CONVENIENCE:** no charging times thanks to exchangeable batteries for uninterrupted use. Optional accessories on the pushing aid offer additional flexibility

The **GMÖHLING pushing aid** increases efficiency and safety. Saves time, costs and space. Provides ergonomic relief for your employees and ensures smooth, fast transport. Can be adapted to for all Gmöhling transport, spring-loaded base or order-picking trolleys.
